

Define:  
The Atmosphere

Define:  
The Biosphere

What is the major  
source of energy that  
drives the water cycle

What is a hypothesis?

Define:  
Data

Define:  
Variable

Give two definitions of  
Science

True or False:  
The earth's inner core is  
solid

True or False:  
The crust of the Earth is  
floating

True or False:  
The lithosphere includes the  
land under the ocean.

The biosphere includes any place that life (of any kind) can exist on Earth.

The envelope of gases surrounding the Earth.

**An educated guess**

The Sun

Factors that can be changed in an experiment.

facts, figures and evidence gathered through observation.

Science is a method of learning about our natural world.

True

Science is also the collected knowledge that has been gained by studying our natural world.

**True**

True
