ESRA II Shoulder and Base kit contents:

1 Base Plate
2 Shoulder Plates

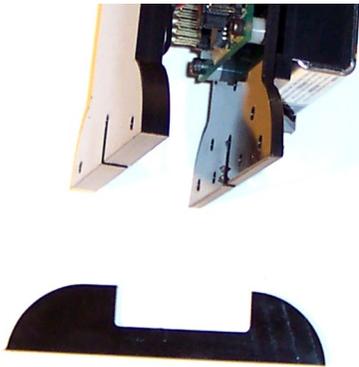

3 Misc. Screws
4 Self Adhesive Feet

Assembly Instructions

Be sure to look up the proper part for each step.

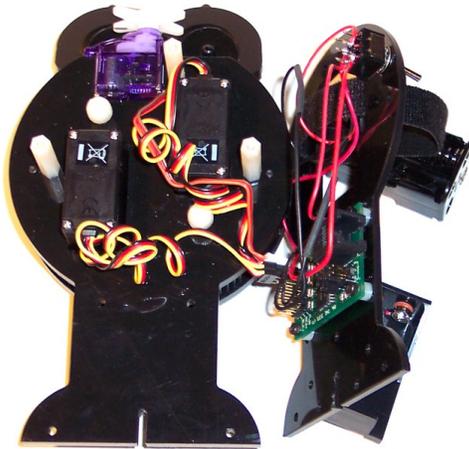

Some basic tool and supplies are required for assembly, including:

- Needle Nose Pliers
- Allen Wrenches

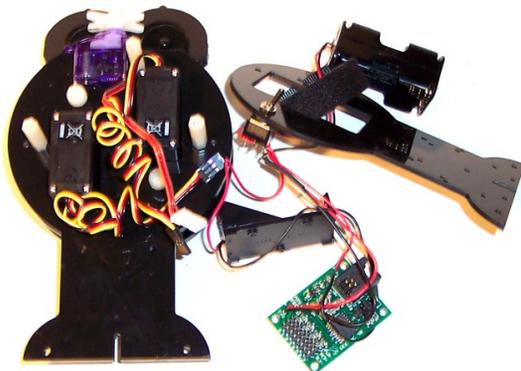

Remove the Cross Plate from your ESRA II.

Figure 1

Unscrew the Back Plate from the Standoffs and set the Back Plate assembly aside.

Figure 2

Remove the screws holding the circuit board and Battery Pack to the Base Plate.

Figure 3

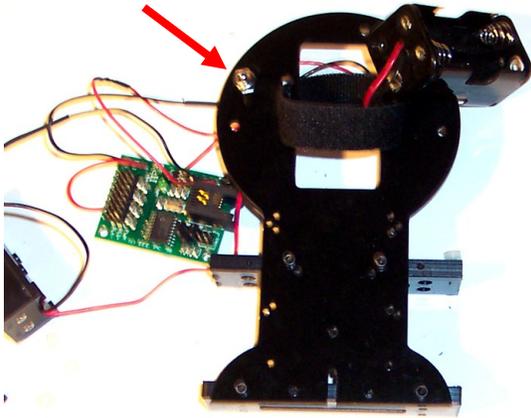

Figure 4

Attach the two Shoulder Plates(2) to the Back Plate with 4 of the shorter included Screws(3). Be sure to keep your Back Plate oriented to match up with your Servo Plate. See arrow for reference.

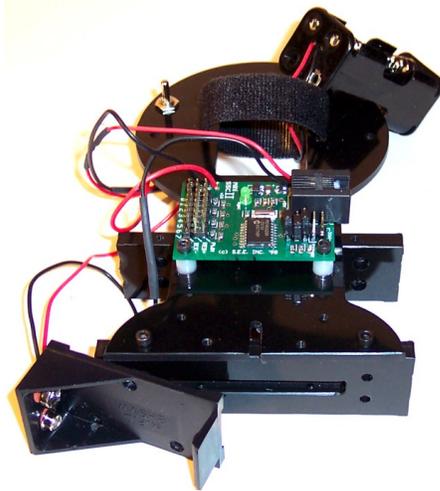

Figure 5

Attach the circuit board with $\frac{1}{4}$ inch spacers. Be sure that the bottom of the circuit board does not touch the screws holding the Shoulder Plates(2)

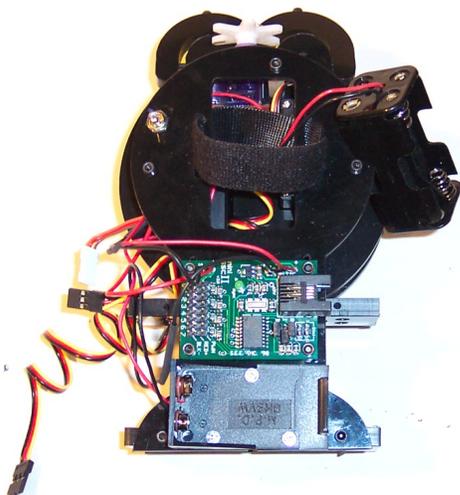

Figure 6

Reattach your Battery Pack to the Back Plate.

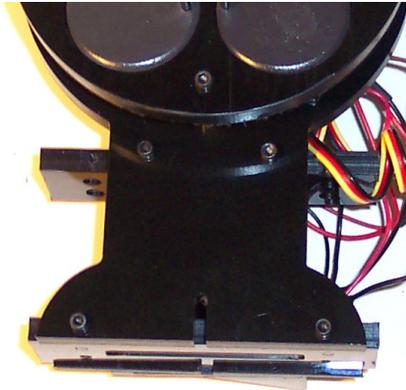

Figure 7

Using the longer included Screws(3), attach the Shoulder Plates(2) to the Servo Plate.

Figure 8

Attach the bottom Shoulder Plate(2) to the Base Plate(1). Apply Self Adhesive Feet(4) to the bottom of the Base Plate(1).

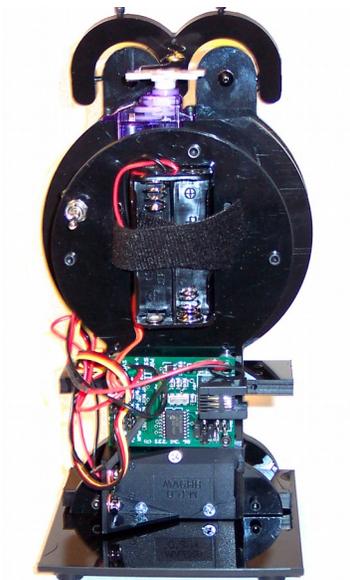

Figure 9

Rear view of the assembled ESRA II with Shoulders.

Enjoy!
